

TEAMx Newsletter #9

November 18, 2022

1. The online [TEAMx-sharepoint](#) hosted at KIT serves an increasingly number of groups to share and collaborate on documents. If you do not have access yet, reach out to Jan Handwerker (jan.handwerker[at]kit.edu) until November 30, 2022. He will take care of the new access request in the beginning of December.

Welcome to the TEAMx SharePoint.

Please read the following instructions when you are here for the first time.

Welcome page on the TEAMx sharepoint

Looking back

2. The TEAMx pre-campaign took place in the Inn Valley during summer 2022. Various research groups took the opportunity to test their instruments as well as explore sites. The pre-campaign was accompanied by a workshop in Innsbruck as well as online on July 14, 2022. Several data sets including a beautifully arranged video clip are already available on zenodo: <https://zenodo.org/communities/teamx-pc22> More details and pictures about the pre-campaign can also be found on above-mentioned sharepoint.

3. The EMS Annual Meeting in Bonn featured a [session about TEAMx](#) on September 8, 2022.

Looking forward

4. Save the date: The International Conference on Alpine Meteorology, [ICAM](#), will take place June 19-23, 2023, in St. Gallen (Switzerland). Abstract submission ends on December 16, 2022. The **3rd TEAMx Workshop** will take place right before the ICAM, on June 15&16, 2023. Details will follow.
5. TEAMx has a new Programme Coordinator: Stephanie Westerhuis will step into the footsteps of Stefano Serafin (2018-2019) and Helen Ward (2020-2022). We thank Helen for her valuable work and look forward to welcoming her back after parental leave when she continues working on her own project, [SCHIRM](#).
Any questions addressing the TEAMx Programme Coordination Office should be sent to [stephanie.westerhuis\[at\]uibk.ac.at](mailto:stephanie.westerhuis[at]uibk.ac.at).
